Field experience gives students the opportunity for hands-on experience in the classroom prior to student teaching. The Teacher Certification Program (TCP) office or your Field Supervisor will inform the students how to obtain field experience.

Candidate students will be placed in one of the middle or high schools that the university has an agreement with. Students will know at the beginning of the semester which school they will go to for field-based observations.

Before the field experience, each student needs to turn in the signed **Field-Based Observation Application Form** (Appendix B1) to the Field-Based Observation coordinator at TCP Office. Students will not contact a school district directly. After they turn in the signed application form, they will receive information about their placement from the TCP office. Each student will be notified regarding the placement of their field experience.

Students are responsible for submitting all assignments regarding field experience by the end of the semester to TCP office.

All teacher certification students must have a degree plan with certification program, which lists coursework, fieldwork and testing requirements for certification. Remember that all students must complete field-based experience in public schools during the first semester of their junior year.

Candidate students should plan to be available during the day to complete 30 hours of field experience.

The guidelines and information for the placement of Field-Based Observation Experience will be provided by TCP office and Field Supervisor.

In order to make this culminating experience to your teacher education program the best it can be, there are certain expectations and responsibilities to remember:

- 1. Recognize and accept classroom management and instruction are the ultimate responsibility of the Cooperating Teacher. If the Student Teacher has concerns about the relationship with the Cooperating Teacher that cannot be resolved, the Student Teacher should discuss these issues with the Field Supervisor. If the Student Teacher has concerns about the relationship with the Field Supervisor, the Student Teacher should discuss these issues first with the Field Supervisor. If these issues remain a concern, the Student Teacher may contact the TCP office. Student Teachers must not wait until the end of the semester to seek assistance with a lingering problem or misunderstanding.
- 2. Know and follow the rules, regulations, and policies of the school. Be aware and follow directives concerning the use of confidential information obtained through student records, conversations, etc. Arrival and departure should be in accordance with the school's policy for all teachers. Student Teachers need to stay late and arrive early for all meetings, team planning, and/or preparation for class.
- Maintain an ethical and professional attitude toward all members of the school community. Student Teachers must not discuss any concerns about the school or district, the teacher, other school personnel or the children in any way that these stakeholders could interpret as criticism.
- 4. The Student Teacher must make himself/herself available for regular planning and feedback sessions with the Cooperating Teacher and Field Supervisor.
- 5. The Student Teacher is required to write quality lesson plans of teaching assignments in advance and share copies with the Cooperating Teacher. The lesson plans need to be available for the Field Supervisor when she/he comes to the school.
- 6. For each announced observation, the Student Teacher will provide a written lesson plan to the Field Supervisor and Cooperating Teacher.
- 7. The Student Teacher will attend all scheduled student teaching and related seminars.
- 8. It is important for the Student Teacher to assess their growth as a teacher and reflect upon how to refine their teaching skills, classroom management techniques, and professional development. Set personal goals for improvement.

- 9. Handle routine discipline problems immediately. The Student Teacher should consult the Cooperating Teacher or Field Supervisor for constructive feedback regarding effective techniques.
- 10. The Student Teacher will discuss with the Cooperating Teacher how to complete the total teach time to provide the best possible experience for the children in the class. Some team teaching is acceptable at this time.
- 11. The Student Teacher will complete any requirements assigned by the Field Supervisor (i.e., professional portfolio, brochure, resume for job seeking, etc.) and submit these on the required dates.
- 12. The Student Teacher will dress and act in a professional manner, following the dress code of the school as well as the NAU Student Teacher dress code.

#### 4.4. Student Teaching Assignment

#### 4.5. Professional Liability

 . State Law entitles the Student Teacher to the same protection of law accorded to the
Cooperating Teacher and the principal. This protection does not apply in cases
where there is use of excessive force in the discipline of students or negligence
resulting in bodily injury to students, nor does the protection apply to the operation or
use of any motor vehicle.

Student Teachers are encouraged to invest in professional liability insurance coverage offered by organizations. The University does not provide the Student Teacher with liability insurance.

Due to the Cooperating Teacher being responsible for the students and the classroom, the Student Teacher is not to be left alone prior to total teaching. The Student Teacher and Cooperating Teacher should agree regarding the Student Teacher's readiness to handle the teaching assignment and classroom behavior before he/she is left alone in the classroom.
The Student Teacher is not to be an aide or substitute and thus cannot supervise on a playground or field trip a group of students without a certified teacher. These guidelines are for the Student Teacher's protection. Immediately, the Student Teacher must alert the Field Supervisor of any violations of this regulation.
Some school districts have been given permission to use a Student Teacher as a substitute teacher. Under these conditions, the school district provides the substitutes with liability insurance.
4.6. Calendar
Student Teachers will follow the calendar of the school district in which they are assigned. For example, if the district has a holiday and the College is in session, the Student Teacher will have a holiday unless the Field Supervisor schedules a seminar.
If the school or district has scheduled staff development days, the Student Teachers are required to participate unless specifically requested not to by the district.
Check the University Student Teaching calendar for mandatory meetings and other information.
4.7. Absences
Perfect attendance during student teaching is expected. If the Student Teacher must be absent and the absence is planned ahead, they must notify first the Field Supervisor and then the Cooperating Teacher as soon as possible. Days missed will be made up at the end of the 14 weeks regardless of the reason unless another arrangement is approved by the Cooperating Teacher and Field Supervisor. It is mandatory that the Student Teacher be in the school for the entire day and to follow the faculty handbook of the school for the times they are to report in and leave school. Lateness is inexcusable.
If the Student Teacher must be absent, he/she will assume responsibility for sending plans and materials to the school if this was his/her responsibility for that day. Failure to notify the specified individuals may result in the termination of his/her assignment.
It is the responsibility of each Student Teacher to notify both the Cooperating Teacher and the Field Supervisor in advance that he/she will be absent from class on a religious holiday. Additionally, he/she should obtain approval for scheduling make-up time and work for this absence.

Student Teachers must limit absences for interviews. The Field Supervisor must approve all absences.
The Student Teacher will need to submit an absence form for each absence to the Field Supervisor.
If at any time, in the judgment of the Field Supervisor and Cooperating Teacher, the Student Teacher's absences are excessive (more than 3 days), their assignment may be terminated.
4.8. Student Teaching Evaluation
Regular observation of the Student Teacher, followed by feedback, is one of the most important tasks done by the Field Supervisor.
Observations and feedback serve a dual function of instruction and evaluation.
Please See Student Teaching Activity/Documentation Schedule (Appendix C16) for details on formal and informal observation schedule and required documentation.
4.9. Outside Responsibilities of Student Teachers
Student Teachers must limit outside activities (e.g., employment, sports, sororities, fraternities) during their student teaching experience.
Student Teaching should be the only class taken during the student teaching semester. If NAU deems that classes are necessary during the student teaching semester, none should be scheduled before 5:00 PM.
Student Teachers will not leave early for work or class.
During this period of time, the Student Teacher's first responsibility is to the students they teach. Outside responsibilities should not interfere with student teaching responsibilities.
4.10. Other Important Points Regarding Student Teaching
Some school districts will require TB testing and fingerprinting before student teaching. The Student Teacher must follow the guidelines of their assigned district.
The Student Teacher is a guest in the teacher's classroom. They are encouraged to listen and observe; question respectfully; never compare teacher's students with others in the school; and never get involved in gossip or negative conversation that might transpire.
There are many parents and community members volunteering in the schools. Student Teachers' conversations with others in the workroom, hallways, and lounge

must be professional. They are to avoid discussing very personal things and confidential information. Instructional materials prepared using supplies provided by the school usually remain with the school at the completion of the student teaching assignment. Many Districts have policies about personal use of instructional materials. To alleviate this problem, the Student Teachers may purchase supplies for instructional materials that the Student teachers want to keep for their own use. State law prohibits the administering of medicine to any student at any time by Student Teachers. Even if the Cooperating Teacher gives the Student Teacher the 'go ahead', they must decline and cite university policy as the reason for doing so. The Student Teachers are not to administer corporal punishment (even in the mildest form.) Student Teachers should not touch students, especially if angry or frustrated. Student Teachers are not to drive their own car to take students on a field trip or to deliver them anywhere away from campus. They can be legally liable for any accidents or injuries. Student Teachers may give information to parents about any student in the Cooperating Teacher's presence and with the Cooperating Teacher's prior permission. Grading papers only for the subjects they are teaching is a practice that is encouraged. If a Student Teacher is experiencing pressure to do a lot of grading and busy work, they should notify the Field Supervisor immediately. The Student Teacher may not write lesson plans or use the computer for personal reasons during class time. The Student Teacher is to spend this time observing the Cooperating Teacher and/or working with students. \_\_ Student Teachers are to turn off cell phones in the classroom. Student Teachers are not to text during the school day. \_\_Student Teachers must maintain confidentiality regarding students, information about the parents of students, or information shared by the Cooperating Teacher. Student Teachers must use good judgment when touching students at any time. Cooperating Teachers need to discuss school policy regarding this. First impressions are extremely important in the public schools. Student Teachers are required to dress appropriately and professionally at all times. Good grooming and hygiene are part of the professional image they create.

Teacher.

Professional communication and demeanor is the hallmark of a good Student

\_\_\_Student Teachers are not to discuss their personal life or any aspect of their life that could call their behavior into question. This includes attention to any information posted on the World Wide Web (i.e., MySpace.com, FaceBook.com, etc.) or an email address that could be detrimental to their character.

#### 4.11. Student Teaching Policies

#### 4.11.1. Changing Your Student Teaching Placement

Students may not negotiate placement within a district. As a North American University Student Teacher, you are the guest of the district and the school. If you are assigned to a school from which you wish to be moved, for a legitimate reason, you must work through your Field Supervisor.

You must not contact the school district office or your Cooperating Teacher to request that you be moved.

#### 4.11.2. Removal of Student Teacher from Student Teaching Program

Refer to Policy number <u>5.1</u> for the detail of this policy in the additional policies section.

#### 4.11.3. Dress Code for Student Teachers

As a student teacher in a public school, you need to present a professional appearance in order to reflect your transition from college student to educator. When student teaching, conservative dress helps you establish authority and professionalism. Your dress should reflect modesty and should not draw attention to you or distract students. Comfort and ease of movement is also important when choosing your clothes and shoes. To help you dress in your best interest, the following dress code has been developed:

\_\_\_You are responsible for knowing and following your school district's dress code. In addition to your district's code, the Texas State dress code requires professional dress. Our dress code is based on good judgment about clean clothes, neat hairstyles, and acceptable hygiene. If a difference in dress codes between your district's code and the Texas State code exists, follow the more conservative guidelines. If you are not sure about the acceptability of a garment, check with the supervisor or don't wear it.

\_\_\_\_The following are prohibited for all student teachers: jeans, t-shirts, tight fitting clothes or clothes which fit poorly and/or draw attention, visible undergarments, caps or hats indoors, tennis/athletic shoes (unless teaching P.E.), flip flops or sports sandals, piercings other than conservative earrings. Unusually colored hair may not be worn and all tattoos must be covered.

These additional guidelines apply for women: Skirt and dress length should allow you
to bend and move without undue exposure. Garments should not be so low, loose or
tight that they are revealing. Your midriff should not be exposed. Tops and/or hip huggers
that expose the waist, back or chest when bending or leaning are not allowed. You should
not wear leggings, pantsuits, or t-shirt material, nor crisscross or spaghetti straps.
These additional guidelines apply for men: Shirts and pants should cover the waist,
back, and chest. No tank tops will be allowed. Ties are not required.
Consequences of inappropriate dress are severe. Students will be asked to return
home and change, and the time missed will count as an absence from student teaching.
A second offense will lead to automatic dismissal from student teaching.
If the school has casual dress on Fridays or for field trips, student teachers may wear
appropriately fitted school logo t-shirts (campus of assignment or North American
University only) and casual clothes acceptable for the public school casual days. All other
dress code guidelines still apply.

Specific requirements for proper dress will be discussed by Field Supervisors, particularly as they relate to teaching fields such as physical education, art, etc.

#### 4.12. Final Details to Remember

#### TAKE STUDENT TEACHING SERIOUSLY

Remember, this experience is one of the most important aspects of your college career. Give it your best effort. You now must take responsibility for your teaching career by completing this experience successfully. Be sure to communicate with both your Cooperating Teacher and the Field Supervisor at all times. If you encounter any serious problem, inform your Field Supervisor immediately. If needed, contact the TCP Office.

## BEFORE YOU CAN BE CERTIFIED AS A TEACHER IN TEXAS YOU MUST DO THE FOLLOWING:

- Take all appropriate TEXES exams (everyone will need a minimum of two: one content test and one Pedagogy and Professional Responsibility (PPR) test)
- Apply for teacher certification online guidelines are provided on the Office of Educator Preparation website.

#### 4.14. Syllabus for (EDUC 4699- Student Teaching) Course

#### SAMPLE Syllabus (Subject to change) EDUC 4699-Student Teaching

#### **Course Description:**

During student teaching, students put into practice the skills they have gained in the Interdisciplinary Studies in Education program. Students will be able to manage the real problems of the school successfully; understand the needs of school administrators, teachers, students, and parents; apply technology in the classroom; and create lesson plans and other documentation based on the needs of the schools.

Through the courses and field experiences that have proceeded this semester, teacher candidates have been discovering, acquiring, and developing the roles and dispositions of scholars, problem solvers, and partners which are required of professional educators serving diverse communities of learners. In this, the student teaching semester, teacher candidates now have the opportunity to apply and to adapt, revise, and revisit all that they have learned about teaching and learning as they serve the children, adolescents, and adults within the school and community settings.

#### **Course Content and Goals:**

The primary goal of the student teaching is to provide teacher candidates with the opportunities to be reflective practitioners serving diverse communities who assume, integrate, develop, and refine three related critical professional roles: scholar, problem solver, and partner.

As a scholar, as a problem solver, and as a partner each will be organize content for student learning (planning), create an environment for student learning (management), teach for student mastery (lesson execution), and develop their professional skills and relationships (teacher professionalism). He/she will develop several important dispositions and values. These include:

- 1. Self-reflection, which will enable him/her to critique, constructively, his/her performance and to make and support judgments and instructional decisions with respect to the learning of individuals or groups of students.
- 2. A deeper insight into the nature of the learning process and a greater knowledge of human development.
- An understanding of the roles of the many different individuals engaged in the teachinglearning process and of collaborative partnerships that can work together for common purposes.
- 4. A realization of the importance of his/her own personal and professional goals.
- Proficiency in instructional competencies and classroom management techniques through direct experiences, thoughtful analysis and continual revision of effective approaches to teaching and learning.
- Acquire knowledge of the resources and materials available to the classroom teacher and ability to adapt and/or incorporate available resources and materials into the instructional program.
- 7. Grow skill in performing routine administrative duties including the maintenance of required records and the submission of required reports.

#### **Student Teaching and the Conceptual Framework for Teacher Education:**

NAU teacher candidate should be a reflective practitioner serving diverse communities of learners as a scholar, problem solver, and partner.

- Reflective Practice: For each lesson taught, candidates are to summarize the
  results of their evaluation of student teaching. They should identify strengths
  and/or weaknesses and cite examples. Suggestions for planning future lessons
  should be included. Teacher candidates are to journal daily reflections of the
  strengths and weaknesses of each lesson and how to improve future
  instruction. Candidates will submit the journals to the Field Supervisor for
  perusal, but Field Supervisors will return the journals at the end of the student
  teaching experience.
- Diverse Communities of Learners: For a typical classroom experience, Field Supervisor place candidates in diverse classrooms. Each placement will reflect diversity in socio-economic status, ethnicity, ability levels, and various exceptionalities. The Cooperating Teacher and Field Supervisor will assist the candidates in identifying and developing accommodations that meet students' unique needs and abilities.
- Scholar: Candidates should be knowledgeable in their field of study. They
  should use the tools of scholarship, including technology, to research their
  content area before constructing lessons and to research, examine, and
  become familiar with the national, state and local standards and performancebased outcomes.
- Problem Solver: The student teaching experience will present teacher candidates with a myriad of opportunities to test and refine their problemsolving abilities. These opportunities will include making curriculum decisions, identifying and/or selecting appropriate teaching strategies, identifying and/or selecting appropriate strategies and techniques for classroom management, and identifying and/or selecting appropriate evaluation tools and strategies. They will work in a collaborative arrangement with their cooperating teacher to identify and solve the problems that are a part of the fabric of instruction and management.
- Partner: North American University views student teachers as integral team members of each school's faculty. Teacher candidates should build professional relationships with colleagues to share teaching insights and to coordinate learning activities for students. They should be invited to faculty meetings, departmental/team meetings, child study team meetings, in- service programs and IEP meetings. They should also be provided with numerous opportunities for communicating with parents/guardians. Teacher candidates should initiate and maintain written, telephone, and personal communications with the home.

#### **Course Objectives:**

NAU and its supervisors organize the student teaching with the following outcomes in mind. As a result of their experiences in student teaching, teacher candidates will be able to:

- 1. Organize content knowledge for student learning. That is, they will:
  - a) Become familiar with relevant aspects of students' background;
  - b) Articulate clear learning objectives which are appropriate for their students;

  - d) Create or select appropriate teaching methods, learning activities, and instructional materials or other resources; and
  - e) Create or select evaluation strategies that are appropriate for the students and aligned with lesson objectives.
- 2. Create an environment for student learning. That is, they will:
  - a) Create a climate that promotes fairness;
  - b) Establish and maintain rapport with students in ways that are appropriate to their developmental needs;
  - c) Communicate challenging learning expectations to each student;
  - Establish and maintain consistent standards of mutually respect in classroom interaction and behavior; and

- Student Teaching Guidelines. This manual provides information regarding the student teaching program including responsibilities as a student teacher and suggestions regarding procedures and activities to employ during the student teaching period.
- 1. Additional texts as assigned by the Field Supervisor.

#### Format of the Course:

Over the course of the student teaching experience, teacher candidates should engage in a variety of activities and experiences designed to enable them to apply, adapt, revise, and revisit what they have learned about teaching and learning and to engage in reflective practice as a scholar, problem solver, and partner in the school and community to which they are assigned. Specifically, they should engage in guided observations designed to acquaint them with students, with classroom management techniques and with instructional methods, strategies, and materials. They should plan and implement daily lesson plans, as well as develop and implement larger projects such as an instructional unit. They should be evaluated using criteria that reflect the course objectives and they should receive feedback, suggestions, and guidance from the student teaching coordinator/supervisor and the cooperating teacher. Finally, they should engage in self-reflection or reflective practice; i.e., they should engage in thoughtful analysis and continual revision of their approaches to teaching and learning.

#### 5. ADDITIONAL POLICIES

#### 5.1. Transfers and Withdrawal policy

A student's transfer, withdrawal or dropout from North American University will result in exiting from the certification program. A student's dismissal for disciplinary reasons will automatically disqualify the student from continuing the Teacher Certification Program.

However, a student may still complete the degree requirements while he/she fails to meet the NAU-TCP's standards. This case may occur often when a student has trouble during the student teaching. A growth plan will be put in effect to help retain the student teacher in the program. A student teacher will be advised to withdraw from teacher certification program and graduate without certification if the student meets graduation hour requirements. In this case, a grade of F will be assigned for the student teaching/practicum course. The Teacher Certification and Retention (TCR) Committee will meet with the student to discuss possible alternative courses (6 credits) the student can take to replace the student teaching course, so that the student can complete the degree requirements and graduate without certification.

The exit procedure involves multiple steps:

- Students having difficulties early in the student teaching experience (within the first three weeks) are asked to leave the school, either by the Field supervisor or the cooperating teacher. However, they may apply for readmission to student teaching for the following long semester or may be assigned to a new placement during the current semester. This will be determined after a Teacher Certification and Retention (TCR) Committee meeting.
- 2. Following the first three weeks, if evidence exists which indicates the possibility that a student will not be successful and complete student teaching, the following procedures will be followed:
  - The student teacher, cooperating teacher/mentor, and Field Supervisor will meet to identify the problem and to determine a solution.
  - The Field Supervisor and cooperating teacher/mentor will develop a growth plan with timeline that will outline specific areas in which the student teacher must improve.
  - The cooperating/mentor teacher and the Field Supervisor will discuss the plan with the student teacher and will assign measurable objectives and a specified period of time in which these objectives must be met.
  - All parties must sign the document and receive a copy of the growth plan (Appendix C13).

- The mentor must send a copy of the plan to the Teacher Certification Program office to be filed in the student teacher's permanent file.
- 3. If, in the specified period of time, the student teacher is unable to meet the requirements outlined in the growth plan, the Teacher Certification Program office, with the mentor, will work cooperatively with the cooperating teacher and student teacher to verify the problem and/or reach a decision concerning a solution.
  - If the problem cannot be resolved, the cooperating teacher or mentor teacher, and/or the school may decide to terminate the student teaching experience.
     At this point, the director of the Teacher Certification Program may choose to refer the situation to the TCR Committee.
  - If the TCR Committee is to meet with the student teacher, complete
    documentation must be submitted to the director of NAU-TCP prior to this
    meeting. The documentation must include specific dates, times, and instances
    of the behavior being reviewed.
  - The director will send all pertinent documentation to members of the TCR Committee prior to the time of the actual meeting.
  - When the TCR Committee meets, they will review pertinent documentation, hear the student's information regarding the problems, and will determine one of the following:
    - The student teacher will be placed on a new growth plan and allowed to re-apply for student teaching during the following long semester. In this case, a grade of incomplete (I) will be assigned.
    - The student teacher will be advised to leave student teaching, graduate without certification (if the student meets graduation hour requirements) and will not be allowed to re-apply for teacher certification at a future time at North American University. In this case, a grade of F will be assigned for the student teaching/practicum course. Teacher Certification and Retention Committee will meet with the student to discuss possible alternative courses (6 credits) the student can take to replace the student teaching course, so that the student can complete the degree requirements and graduate without certification.
- 5. If a student is removed from a student teaching location, he/she will not be reassigned to that location when redoing student teaching.
- 6. A student teacher removed from student teaching or who receives no credit in student teaching a second time will not be allowed to re-apply for student teaching at North American University without the recommendation of the TCR Committee and approval of the director of the Teacher Certification Program office.

#### 5.2. Approval for TEXES Exams

TEXES exams require intense pedagogy and content knowledge and test preparation. Thus, TCP office will not approve candidates to take PPR test before they register in TCP program.

#### 5.3. Determining Readiness to Test

Students should attend a 6-hours Test Preparation Training prior to taking their official TExES exams. TCP will test the readiness of each candidate to take the PPR through mock tests.

NAU-TCP will only grant test approval for PPR assessment, if the candidate scores proficient in the eligibility test and has met all requirements set by NAU-TCP. Scores on the PPR will determine eligibility for certification.

#### 5.4. Recommending for Certification

In order NAU-TCP to recommend a Student Teacher for certification, the candidate student teacher must meet the following criteria.

- The candidate must complete field-based observation
- The candidate must complete all course work.
- The candidate must pass both PPR and content exams (TExES exams)
- The candidate must complete student teaching.
- The candidate must be in the status of "Finisher" status in ASEP.

#### **5.5. TEA Complaint Process**

The complaint process allows for an applicant, candidate, employee or former employee of an EPP, a cooperating teacher, a mentor, or an administrator in a school district, charter school, or private school to submit a complaint about an EPP for investigation and resolution.

The complaint process allows individuals to seek redress in areas where they feel that the program did not fulfill requirements for certification or for actions that the individual feels are wrong. Educator preparation programs may also file a complaint about the actions of other EPP programs when it involves a candidate's transfer into or out of a program.

Not all complaints fall under the authority of TEA. TEA has jurisdiction to investigate allegations of noncompliance regarding specific laws and rules, generally related to state and federal requirements. Complaints may address educator preparation program requirements listed in Texas Administrative Code (TAC) §§ 227, 228, 229, ethics (TAC 247), fingerprinting (TAC §§227, 232) and certification (TAC §§230, 231, 232, 239, 241, 242). TEA staff and the SBEC do not have jurisdiction over complaints related to contractual arrangements with an EPP, commercial issues, obtaining a higher grade or credit for training, or seeking reinstatement to an EPP.

#### Filing a Complaint

All complaints filed with the TEA must be in writing. We do not accept complaints by phone or complaints that are submitted anonymously. A person or entity may file a written complaint with

TEA by filling out the <u>complaint form</u> online or by mailing or faxing a hard copy to the address on the form.

To adequately review and address a complaint, TEA needs specific details. We must be able to identify a clear violation of TAC and determine whether the agency has authority to act upon the allegation.

Complaints submissions should include the following:

The reasons you believe the issues raised in your complaint are valid. You should also indicate how you believe that TEA can assist you with this matter.

Documentation to support your claim when possible. For example, if you refer in your complaint to an educator preparation program policy, include a copy of the policy with your complaint. Helpful documentation might include letters or e-mails exchanged between the parties.

#### After the Complaint Is Filed

Texas Education Agency staff will send confirmation of a complaint within 30 days of receiving the submission. Remember, information the public sends to TEA by email may not be secure. Do not email sensitive information to TEA. The agency will remove confidential or sensitive information when replying by email. TEA will maintain confidentiality of information to the extent the law allows.

TEA staff will record all complaints in the TEA complaints tracking system. Each complaint, no matter the severity, shall be assigned a tracking number. The complaint will be forwarded to the division responsible for educator preparation for further action, including assessing the complaint, providing a severity status and prioritizing the complaint accordingly, and determining jurisdiction. If TEA staff determines that the complaint is not within the State Board for Educator Certification's (SBEC) jurisdiction, TEA staff shall notify the complainant that the complaint will be closed without action for lack of jurisdiction. If TEA staff determines the complainant knew or should have known about the events giving rise to a complaint more than two years before the earliest date the complainant filed a complaint with either TEA staff or the EPP, TEA staff will notify the complainant that the complaint will be closed without action. If a complainant has not exhausted all applicable complaint and appeal procedures that the EPP has established to address complaints, TEA staff may delay initiating an investigation until the EPP's complaint and appeal process is complete.

Upon completion of an investigation, TEA staff will notify both the individual and the EPP in writing of the findings of the investigation. If TEA staff finds that a violation occurred, the notice will specify the statute and/or rule that was alleged to have been violated. Each party will have ten business days to present additional evidence or to dispute the findings of the investigation.

After reviewing any additional evidence, if TEA staff finds that no violation has occurred, the complaint will be closed and TEA staff will notify both parties in writing. After reviewing any additional evidence, if TEA staff finds that the EPP has violated SBEC rules and/or TEC, Chapter 21, additional actions will be taken against the EPP.

The final disposition of the complaint will be recorded in the TEA complaints tracking system.

Please refer to

http://tea.texas.gov/Texas Educators/Preparation and Continuing Education/Complaints\_Against\_Educator\_Preparation\_Programs/ for additional details on the complaint process.

• (Texas Success Initiative (TSI))

A student may be exempt from meeting Texas Success Initiative standards by meeting one of the following standards.

- Texas Higher Education Assessment (THEA): Minimum scores: Reading 230; Math 230; Writing 220 with no time limit.
- TAKS: minimum 2200 on both the English and/or math section, with at least 3 on the writing component of 11grade TAKS (for a period of 3 years from the data of testing).
  - SAT: Minimum scores: Verbal 500; Math 500., combined verbal and math score of 1070.
- ACT: Minimum scores: composite score 23 or higher with at least a 19 on both English and Math section
- VETERANS: Veterans and active duty personnel serving for at least 3 years preceding enrollment.
- TRANSFER: Transfer from a private or independent institution or an accredited out-of-state institution and has satisfactorily completed college-level coursework as determined by the receiving institution.
- CERTIFICATE: Enroll in a certificate program of one year or less (Level-One certificates, 42 or fewer semester credit hours or the equivalent) at a public community college, a public technical institute, or a public state college.

Students attending Texas public institutions of higher education must be in compliance with the Texas Success Initiative (TSI), as of fall 2003 (Texas Education Code §51.3062) in order to enroll in public institutions of higher education. The law requires all entering college students to be assessed for college readiness in reading, mathematics and writing unless the student qualifies for an exemption. Each student who fails to meet the minimum passing standard of the exam offered by the institution must be placed in a developmental education program designed to help the student achieve college readiness. Which students must take a TSI exam?

Unless exempt, students who are entering a Texas college or university must take a TSI exam and receive a passing score in order to enroll in credit bearing courses. Students may be exempt from taking a TSI exam by achieving any of the requirements included on the right.

When do students take a TSI exam?

Students must take a TSI exam and have scores on file before they can enroll in college-level classes. Each college and university offers a different exam. A student must take the exam required by the college or university he/she will be attending. Students are notified of their scores and eligibility to enroll in credit bearing courses immediately upon completing an exam. What TSI exams are available to students?

The exams currently authorized to satisfy TSI are:

ASSET, COMPASS, THEA, ACCUPLACER

What are the minimum passing scores for each exam?

The minimum passing standards for each TSI approved exam is listed below. However, it is critical to note that each college or university may require higher standards.

#### Minimum Passing Standards

ASSET	COMPASS	ACCUPLACER	THEA
<ul> <li>Reading - 41</li> <li>Algebra - 38</li> <li>Writing (objective) - 40</li> <li>Written Essay - 6</li> </ul>	<ul> <li>Reading - 81</li> <li>Algebra - 39</li> <li>Writing (objective) - 59</li> <li>Written Essay - 6</li> </ul>	<ul> <li>Reading - 78</li> <li>Algebra - 63</li> <li>Sentence Skills - 80</li> <li>Written Essay - 6</li> </ul>	<ul><li>Reading - 230</li><li>Math - 230</li><li>Writing - 220</li></ul>

The minimum passing standard for the written essay portion of the ASSET, COMPASS, and ACCUUPLACER is a score of 6. However, an essay with a score of 5 will meet this standard if the student meets the objective writing test standard of these tests.

# TITLE 19 EDUCATION PART 7 STATE BOARD FOR EDUCATOR CERTIFICATION CHAPTER 247 EDUCATORS' CODE OF ETHICS

#### **RULE §247.1 Purpose and Scope; Definitions**

- (a) In compliance with the Texas Education Code, §21.041(b)(8), the State Board for Educator Certification (SBEC) adopts an Educators' Code of Ethics as set forth in §247.2 of this title (relating to Code of Ethics and Standard Practices for Texas Educators). The SBEC may amend the ethics code in the same manner as any other formal rule.
- (b) The Texas educator shall comply with standard practices and ethical conduct toward students, professional colleagues, school officials, parents, and members of the community and shall safeguard academic freedom. The Texas educator, in maintaining the dignity of the profession, shall respect and obey the law, demonstrate personal integrity, and exemplify honesty and good moral character. The Texas educator, in exemplifying ethical relations with colleagues, shall extend just and equitable treatment to all members of the profession. The Texas educator, in accepting a position of public trust, shall measure success by the progress of each student toward realization of his or her potential as an effective citizen. The Texas educator, in fulfilling responsibilities in the community, shall cooperate with parents and others to improve the public schools of the community. This chapter shall apply to educators and candidates for certification.
- (c) The SBEC is solely responsible for enforcing the Educators' Code of Ethics for purposes related to certification disciplinary proceedings. The Educators' Code of Ethics is enforced through the disciplinary procedure set forth in Chapter 249 of this title (relating to Disciplinary Proceedings, Sanctions, and Contested Cases) pursuant to the purposes stated therein.
- (d) As provided in §249.5 of this title (relating to Purpose; Policy Governing Disciplinary Proceedings), the primary goals the SBEC seeks to achieve in educator disciplinary matters are:
  - (1) to protect the safety and welfare of Texas schoolchildren and school personnel;
  - (2) to ensure educators and applicants are morally fit and worthy to instruct or to supervise the youth of the state; and
  - (3) to fairly and efficiently resolve educator disciplinary proceedings at the least expense possible to the parties and the state.
- (e) The following words, terms, and phrases, when used in this chapter, shall have the following meanings, unless the context clearly indicates otherwise.
  - (1) Abuse--Includes the following acts or omissions:

- (A) mental or emotional injury to a student or minor that results in an observable and material impairment in the student's or minor's development, learning, or psychological functioning;
- (B) causing or permitting a student or minor to be in a situation in which the student or minor sustains a mental or emotional injury that results in an observable and material impairment in the student's or minor's development, learning, or psychological functioning;
